

# PYRAMID HEALTH AND SAFETY TRAINING

*A division of Regional EMS & Critical Care*

**First Aid** *The training you need at your location - save on travel costs!*

**CPR**  *Professional, didactic instruction*

**AED** *Hands-on training*

*Keep your entire organization safe with great discounts for large groups!*

**Pyramid Health and Safety Training** offers a wide variety of **CPR, AED and First Aid courses** so that you can select one based on your organization's needs.

## **BLS for Healthcare Providers**

One and two-person CPR for adults, infants and children, AED, and basic airway maintenance. Designed for individuals who work in the healthcare field. If you are not a healthcare provider, we do not recommend this course.

## **Heartsaver CPR**

Basic adult and child CPR. The infant CPR portion of this course is also available.

## **Heartsaver AED**

Complete Heartsaver CPR course, plus instruction in the use of an AED (automated external defibrillator)

## **Heartsaver First Aid**

Basic First Aid skills. Students learn to treat injuries ranging from minor cuts to burns, anaphylaxis, shock, and more.

## **CPR in Schools**

A CPR class designed to teach middle and high school students basic CPR skills. This course can be condensed to only 2 hours so that students can be taught during the school day.
